COMMUNITY POTLUCK

95959google is a project of the City of Nevada City, Spiral Internet, and everyone in our community who imagines life beyond dial-up. This event is being produced in cooperation with Nevada City Chamber of Commerce, Miners Foundry, and many many volunteers. Thanks to all!

95959google is neither endorsed by nor associated with Google. The domain name and project was simply set up for us to promote the Google Fiber for Communities initiative in our community during the Request for Information process. We understand that Google is an international trademark owned by Google, Inc. This is not an attempt to infringe on that trademark in any manner. And "googlebit" – we thought that up. It's for Google.
